

ITSEC Consultants
Solutions Delivered

Cybersecurity Solutions Delivered.

ITSEC Consultants Private Limited

Protecting Indian businesses with enterprise-grade cybersecurity, DPDP compliance, and cloud solutions — trusted by SMBs to enterprises.

Executive Summary

A message for CIOs, CISOs, and business leaders evaluating cybersecurity partnerships.

India's digital landscape is under siege. With cyber threats escalating across every sector, the DPDP Act enforcement live since November 2025, and penalties reaching ■250 crore, the cost of inaction has never been higher. ITSEC Consultants Private Limited is India's trusted Data Security and Compliance Advisory firm — helping businesses across BFSI, Healthcare, Manufacturing, IT/ITES, and E-commerce navigate the complex cybersecurity and regulatory landscape with confidence.

ITSEC Consultants functions as a strategic Data Security and Compliance Advisor — not merely a product vendor. We begin every engagement by understanding your business, your data flows, your regulatory obligations, and your risk appetite. Only then do we recommend and implement the right combination of technologies, processes, and policies. Backed by partnerships with 12+ global cybersecurity leaders — Sophos, Kaspersky, Microsoft, Trellix, Forcepoint, Seqrite, Safetica, Data Resolve, Escan, Weguard, Google Workspace, and Zimbra — we deliver independent, outcome-focused advisory that puts your compliance and security posture first.

- ✓ **Advisory-First Approach**
We assess your risk landscape and compliance obligations before recommending any technology — ensuring you invest in what you truly need.
- ✓ **DPDP & Regulatory Expertise**
Dedicated practice covering DPDP Act 2023, CERT-In guidelines, RBI, SEBI, and sector-specific compliance across all major Indian industries.
- ✓ **Technology-Agnostic Recommendations**
With 12+ OEM partnerships, we recommend the best-fit solution for your environment — not the easiest product to sell.
- ✓ **End-to-End Accountability**
From risk assessment and solution design to deployment, staff training, and ongoing compliance monitoring — we own the outcome.

DPDP Compliance Solutions

India's Digital Personal Data Protection Act 2023 — Rules notified November 2025. Full compliance deadline: May 13, 2027. Are you ready?

What the DPDP Act Demands From Your Business

Consent Management	Explicit, informed consent before collecting any personal data. Blanket consent is invalid.
Data Principal Rights	Users can access, correct, and erase their data. Your systems must support this.
Breach Notification	Report breaches to the Data Protection Board within 72 hours. Non-compliance: up to ₹250 crore penalty.
Data Minimisation	Collect only what is necessary. Retain only as long as needed. Delete thereafter.
Data Protection Officer	Appoint a DPO for sensitive data processing. Significant Data Fiduciaries face enhanced obligations.
Data Protection Impact Assessment	Mandatory DPIAs for high-risk data processing activities.

ITSEC DPDP Compliance Workflow

1. Data Audit & Mapping	2. Gap Assessment	3. Policy & DPO Setup	4. Technical Controls	5. Staff Training	6. Ongoing Monitoring
------------------------------------	--------------------------	----------------------------------	------------------------------	--------------------------	------------------------------

ITSEC Consultants delivers end-to-end DPDP implementation — from initial data mapping to technical controls, DPO advisory, staff awareness training, and ongoing compliance monitoring.

Our Solution Portfolio

Comprehensive cybersecurity solutions powered by world-class OEM partnerships.

■ Data Loss Prevention (DLP)

- Prevent sensitive data from leaving your network
- Monitor email, USB, cloud uploads & print
- OEMs: Data Resolve, Safetica, Forcepoint
- DPDP-aligned data classification & policies

■ Mobile Device Management (MDM)

- Secure and manage all corporate mobile devices
- Remote wipe, policy enforcement, app control
- OEM: Weguard MDM
- BYOD and corporate device support

■ Endpoint Security & EDR/XDR

- Next-gen antivirus + behavioural threat detection
- Real-time response to advanced threats
- OEMs: Sophos, Trellix, Seqrite, Escan, Kaspersky
- Centralized management dashboard

■ Anti-Ransomware Solutions

- Dedicated ransomware prevention & rollback
- Zero-day exploit protection
- Behavioural AI detection engine
- OEMs: Sophos Intercept X, Kaspersky, Seqrite

■ DMARC & Email Security

- Stop phishing, spoofing & BEC attacks
- DMARC, DKIM, SPF policy enforcement
- Email encryption & DLP integration
- Protect your brand domain reputation

■ Cloud Services & Migration

- Microsoft 365, Google Workspace, Zimbra
- Secure cloud migration & deployment
- Hybrid cloud architecture design
- Ongoing administration & support

■ Microsoft 365 & Productivity

- Licensing, deployment & configuration
- Microsoft Defender integration
- Teams, SharePoint, OneDrive rollout
- OEM: Microsoft (authorised reseller)

■ Software Licensing & Asset Management

- Optimise your software spend & compliance
- License lifecycle management
- SAM audits & renewal management
- Multi-vendor licensing consolidation

Customer Pain Points vs. ITSEC Solutions

We understand your challenges. Here's how we solve them.

Customer Pain Point	ITSEC Solution
Employees leaking sensitive data via USB or email	DLP solutions from Data Resolve / Safetica with real-time alerts & blocking
No visibility into mobile devices used for work	Weguard MDM — full device control, remote wipe, policy enforcement
Ransomware attacks shutting down operations	Sophos Intercept X / Kaspersky with rollback & behavioural AI prevention
Phishing emails impersonating our domain	DMARC enforcement + email security gateway — stops spoofing at source
DPDP compliance deadline approaching — no roadmap	End-to-end DPDP implementation: audit → controls → DPO → monitoring
Slow, expensive on-premise email & collaboration	Cloud migration to Microsoft 365 / Google Workspace / Zimbra
Antivirus not catching advanced threats	EDR/XDR from Trellix / Sophos / Seqrite — goes beyond signatures
Overspending on unused software licences	SAM audit + multi-vendor licence optimisation & renewal management
No breach response plan in place	Incident response planning + DPDP-aligned 72-hour breach notification workflow
Remote workforce creating new security gaps	Zero Trust endpoint + MDM + cloud security — secure anywhere, any device

Industry-Specific Use Cases

Tailored cybersecurity for India's most targeted sectors.

■ Healthcare & Clinics

Hospitals, diagnostic labs, telemedicine platforms, and health-tech startups process India's most sensitive personal data. DPDP mandates explicit patient consent, 72-hour breach reporting, and DPIAs.

- Patient data DLP — prevent records from leaking via email or USB
- Endpoint protection for clinical workstations and PACS systems
- DPDP consent management and DPO advisory
- Anti-ransomware — 445 healthcare orgs hit globally in 2025
- Relevant OEMs: Sophos, Data Resolve, Safetica, Kaspersky

■ BFSI — Banking, Financial Services & Insurance

Fintech, NBFCs, insurance aggregators, and payment platforms face dual compliance — DPDP plus RBI, SEBI, and IRDAI. Data breaches here directly erode consumer trust and attract regulatory action.

- DLP for financial PII — KYC data, account details, transaction records
- Email security — stop BEC and wire fraud phishing attacks
- DPDP + RBI compliance alignment and audit support
- Privileged access management and insider threat detection
- Relevant OEMs: Forcepoint, Trellox, Data Resolve, Sophos

■ Manufacturing & Industrial

India's manufacturing sector is increasingly targeted for IP theft and operational disruption. OT/IT convergence creates new attack surfaces that traditional AV cannot address.

- Endpoint EDR/XDR for factory floor PCs and SCADA-adjacent systems
- USB and removable media control — prevent IP exfiltration
- Software asset management for multi-site license compliance
- Anti-ransomware with operational continuity rollback
- Relevant OEMs: Seqrite, Escan, Kaspersky, Safetica

■ IT/ITES & Startups

IT services firms and SaaS startups process client data from global customers, making them primary targets and subject to DPDP as data processors. Early enforcement hit mid-sized app developers hardest.

- Cloud security for Microsoft 365, Google Workspace, AWS workloads
- MDM for remote and hybrid developer teams — BYOD security
- DPDP compliance for SaaS platforms handling Indian user data
- DMARC — protect your domain from client phishing attacks
- Relevant OEMs: Microsoft, Google, Weguard, Sophos, Trellix

OEM Partner Ecosystem

ITSEC Consultants is an authorised reseller and solution partner for 12+ global cybersecurity leaders.

Data Resolve DLP & Insider Threat	Safetica DLP & Data Classification	Escan Endpoint & Mobile Security
Kaspersky Endpoint & EDR	Forcepoint DLP & Web Security	Trellix EDR / XDR Platform
Seqrite Endpoint & EDR	Sophos Anti-Ransomware & EDR	Weguard MDM Solution
Microsoft 365 Productivity & Security	Google Workspace Cloud Collaboration	Zimbra Enterprise Email

Solution Mapping by OEM

Solution Area	ITSEC OEM Partners
DLP / Insider Threat	Data Resolve, Safetica, Forcepoint, Trellix
Endpoint Protection (EPP)	Escan, Kaspersky, Seqrite, Sophos
EDR / XDR	Sophos Intercept X, Trellix, Seqrite, Kaspersky
Anti-Ransomware	Sophos, Kaspersky, Seqrite, Escan
Mobile Device Management	Weguard
Email Security / DMARC	Data Resolve, Microsoft 365 Defender
Cloud Productivity	Microsoft 365, Google Workspace, Zimbra
Web Security / CASB	Forcepoint, Trellix

Why Choose ITSEC Consultants?

We are more than a reseller — we are your long-term cybersecurity partner.

■ DPDP Specialists

One of the few cybersecurity firms in NCR with a dedicated DPDP compliance practice. We help you achieve compliance before the May 2027 deadline — not after the fine.

■ 12+ OEM Partnerships

Access to best-in-class tools across DLP, EDR, MDM, email security, and cloud — all from a single trusted partner with competitive OEM pricing.

■■ Delhi NCR Based

Headquartered in Noida, Sector 3 — with on-site support capabilities across Delhi NCR and pan-India remote delivery.

■ End-to-End Delivery

From needs assessment and POC to deployment, staff training, and 24x7 post-sales support — we manage the full lifecycle.

■ SMB-to-Enterprise

Purpose-built commercial models for Indian SMBs with scalable licensing — pay for what you need, grow as you scale.

■ Compliance-First Mindset

Every solution recommendation is evaluated through the lens of DPDP, CERT-In, and industry-specific regulations relevant to your business.

Our Engagement Process

Ready to Secure Your Business?

Book a FREE 30-minute cybersecurity assessment with our experts. We'll identify your top 3 risks and recommend a prioritised action plan — at no cost.
